The cement mixer is the housing and viewing tool as a direct reference to all of the new construction and renovations happening in the area. The internal kaleidoscope is the perfect device to mix and reconstruct reality in dazzling ways. Viewers interact with Cementiscope and are struck by the dichotomy of the concrete drum’s grounded heaviness and the kaleidoscope’s lightness, which is focused upward reflecting infinite possibilities.

Commercial Place Fountain (C-4)
Located in the heart of the Financial District – The fountain was designed by Sasaki Associates and constructed in 1973. It was a gift of Dr. and Mrs. Reuben Hoppenstein.

Gateway Towers (B-3+4)
NEON District Gateway – Artist John Rudel worked with students of Norfolk’s Emerging Leaders program to make use of old bus stop signs. They have a totem-like appearance and serve as markers in Norfolk’s NEON District.

Virginia Beach artist Troy Summerell of OnieTonie Designs has murals in both the NEON and the ViBe Districts, Norfolk’s and Virginia Beach’s arts and design neighborhoods.

**Homage to Man Ray (B-2)**

**The Homecoming (D-3)**
Town Point Park – *The Homecoming* by artist Stanley Bleifeld is a larger than life size statue of a U.S. Navy sailor being greeted by his family upon his return from sea duty. *The Homecoming* has particular significance because it was dedicated the same week the crew of the USS Cole returned to Norfolk following the terrorist attack in Yemen.

Jordan Jr., former Norfolk Councilman and General District Court Judge, is an 83’ tall, 4-sided fountain in a tall, black granite obelisk with quotations of Dr. King. The Memorial is surrounded by plantings on a raised traffic circle and serves as a constant reminder of the importance of including all citizens in the democratic process and the benefits derived from doing so. A plaza with seating, signs, and dedicated parking offers visitors a place to reflect on the memorial. It was designed by Siska Aurand Landscape Architects in 2002.

**Mermaids on Parade**
Citywide – As a port city, Norfolk has long lured men and women to the sea, so the mermaid was designated as our signature symbol in 1999 as a celebration of how far Norfolk had come, and then as a way to celebrate the arts community with the Mermaids on Parade Project in 2000. Today, dozens of colorful mermaids still dot the landscape in Downtown and throughout Hampton Roads. The mermaids celebrate life, local attractions, causes and fun. mermaidsonparade.com

**MetalMatisse (C-4)**
MacArthur Station – *MetalMatisse*, created by the artists of Electroland, is an interactive, exuberant light and sound sculpture located at MacArthur Square. The artwork is a vase with a bouquet of flowers which comes to life when prompted by the visitors below; each flower can give an individual response and periodically all the flowers join in an orchestrated chorus of light and sound. The flowers adapted from paintings of flowers by the French artist Henri Matisse complement the European formal design of the park, while its exuberance and improbable scale make a distinctly modern statement.

724 Granby Street – Norfolk Nautical is inspired by mermaids, Norfolk’s naval history, the Chesapeake Bay, the Norfolk Southern Railway, the colonial years of Virginia County, and the vibrancy of the NEON District. The granite base contains the names of the fallen officers. The bell, known as the Old Jail Bell, hung in Norfolk’s first courthouse. The current bell was recast in 1867 to repair damages suffered on January 1, 1863 when it was rung to celebrate the Emancipation Proclamation. The bell, hung at the Norfolk jail after 1867, was moved to the Public Safety building in 1961 and incorporated into the Police Memorial in 1984.

**Progression (B-3)**
128 W. Olney Road – Comprised of 3 geodesic domes clad in mirrored and dichroic glass, this site-specific work by Robin M. Rogers hangs in the atrium of Glass Wheel Studio. The piece explores geometry and space, and is inspired by glass’s ability to reflect and refract light.

Wisconsin Square – The USS Norfolk, Destroyer Leader 1 was commissioned at the Philadelphia Naval Yard on March 4, 1953. The wife of former Norfolk Mayor Fred Duckworth served as the ship’s sponsor. Following the decommissioning of the USS Norfolk, the ship’s bell was on display at the foot of St. Paul’s Boulevard from 1975 until 1987. It is now located in Wisconsin Square, near Harbour Place Condos. The giant brass bell is one of the last remaining pieces of the destroyer Norfolk.
