## **Holiday Art Installations Featuring 12 Glowing, Musical Interactive SeeSaws to Light Up Downtown Norfolk at MacArthur Center *Impulse* Open to the Public Nov. 16 to Jan 19**

**NORFOLK, Va. — October 10, 2019 —** *Impulse*, a participatory artwork featuring 12 glowing seesaws that emit light and sound when people climb aboard, will be lighting up Downtown Norfolk on the MacArthur Center Green from November 16 until January 19, 2020.

The exhibit, which is a collaborative venture between MacArthur Center and the Downtown Norfolk Council, is free and open to the public.

Created by Lateral Office and CS Design in collaboration with the Quartier des Spectacles Partnership in Montreal, Canada, *Impulse* features 12 large seesaws that are fitted with LED lights and speakers. By interacting with the exhibit, visitors create dynamic and delightful waves of light and sound that add warmth to the winter's short days and dark nights.

The playful installation debuted in 2015 at the Place des Festivals in Montreal's Quartier des Spectacles winter event, where the creators gave insight about their heartfelt and fun work.
